

I'm **FIN**ished
WITH FINS

Restaurant owner: Please stop selling shark fin soup
I respectfully ask that you please stop selling shark fin soup
because:

- Every species of shark commonly used in shark fin soup is at risk of extinction.
- Fins are sliced off of tens of millions of sharks each year, sometimes while they are still alive.
- Sharks are vital to the health of marine ecosystems, and their disappearance is compromising the health of our oceans
- Shark fin soup is not healthy and may contain heavy metals like mercury and neurotoxins linked to degenerative brain diseases.

Thank you for considering not serving shark fin soup and making shark protection a priority. To learn more about shark fin soup, please visit www.Sharksavers.org/sharkfinsoup
